Silico Organosilicon

Silico SILICONES

SILICO ORGANOSILICON

Silico Organosilicon, established in 2007, is one of the leading manufacturers in the organosilicon industry, specializing in the development and production of silanes and siloxanes.

With a strategic position in the silicone supply chain, Silico Organosilicon offers a comprehensive portfolio of high-performance products and solutions designed to meet diverse customer needs. Our offerings include silanes and siloxanes, silicone oils, emulsions, rubbers, resins, and fumed silica.

Today, our products are successfully applied across a wide range of industries worldwide, including adhesives and sealants, agriculture, artificial marble, building protection, coatings and paints, fillers and pigments, foundry, fiberglass, leather and textiles, lubricants, personal care, pharmaceutical plastics and thermoplastics, polyurethane foam, rubber and tires, as well as wires and cables.

Why select Silico Organosilicon?

- Strong silane and silicone manufacturing capabilities built over 15+ years history.
- Flexible manufacturing facility able to handle kilograms to thousands of tons per years.
- Rapid and professional process development and scale-up capabilities.
- Offer tailored options while adhering to high quality and safety standards.
